Profile

I am a goal-oriented, self-disciplined, hard-working person who has developed a mature and responsible approach to any task that I undertake, or situation that I am presented with. A team member who can establish and maintain good teamwork by working as a part of the team. Skilled at quickly solving problems, pursuing and uncovering new solutions to old or/and tough problems, and effectively communicating. A software developer who is capable of designing, and developing complex systems with ease. Strong background in project management and customer relations. Especially qualified, experienced and proven himself in programming knowledge, back-end and front-end technologies. Well-versed in multiple programming languages. Always a student who has a curiosity and open to learn new things.

Professional Experience

Software Engineer, Garanti BBVA Technology

06/2023 – present | İstanbul, Turkey

I'm currently working as a Software Developer in Garanti BBVA Technology. The team that I am currently working in is responsible for developing and maintaining E-Commerce systems and ACS (3D Secure) operations of Garanti BBVA.

Software Developer, Ford Otosan

10/2021 – 06/2023 | Eskişehir, Turkey

I have participated in the development of several projects in which their back-end technologies are based on .NET MVC, .NET Web Forms, and .NET Core. On the other hand, I have developed the front-end of the projects with HTML, CSS, and JS. I am experienced in PL/SQL, Oracle Toad, and Azure DevOps.

Software Engineering Intern, Baykar Technology

08/2021 – 09/2021 | İstanbul, Turkey

I have worked as a Software Engineering Intern in 'Baykar Technology' which is one of the lead defense industry companies in Turkey. I had developed several projects using C# and .NET technologies. I cannot tell any furthermore information about the projects that I have built but the one that I have spent much more time on than others is generally automation of some kind of OS/Software adjustments.
